## YOU DON'T KNOW

What a comfort it is to have ready at hand a remedy that never fails to relieve Constipation, and that, without pain or discomfort; and almost immediately cures headaches, and dispels every symptom of Dyspepsia. Such a remedy is found in Simmons Liver Regulator—not a sweetened compound to nauseate, or an intoxicating beverage to cultivate an alcoholic appetite, but a medicine pleasant to the taste, and perfectly harmless when given to the smallest child. S. L. R. never disappoints. It possesses the virtues and perfections of a reliable remedy of the kind endorsed by eminent physicians.

"It affords me pleasure to add my testimony to those you receive annually in reference to your valuable medicine. I consider Simmons Liver Regulator the best family medicine on the market. I have prescribed it with excellent results."  
—W. F. PARK, M. D., Tracy City, Tenn.

**One Day's Liberty.**  
Mr. Neater—I wish you wouldn't let little Dot play with such a dirty rag-muffin as that boy she is with out there on the street.  
Mrs. Neater—Why, that's little Dick, your own son. I've been away all day and he's been doing as he pleased.—  
—Globe News.

**The Girdle Is Useful.**  
A most useful article for ladies to have in their possession is a girdle, the title of which is a friend of mine has just brought from Paris. The girdle is made of gold lace or filigree, substantial, but not harsh, and is encased all over with jewels of various colors. The ends are pinned in front of the waist from the front, crossing behind, and, again coming forward, are allowed to fall in front or on one side, being fastened loosely shortly below the waist. The ends are finished off with gold fringe.  
The girdle is most adaptable and can be worn with a morning wrapper, a tea gown, or an evening dress. When I saw it, it was associated with a summer tea-gown of pretty design. The material was a combination of cotton and wool in the blue, with white stripes. It had a collar collar, with narrow lace edging and lace cuffs. The garment was decidedly loose, and of fair length behind.—  
—Philadelphia Press.

**The Jews and the Moon.**  
Dr. Goldziner refers to the occasional lunacy of the Jews. "Queen or princess of heaven," he writes, "is a very frequent name for the moon. Even in the latest times the Hebrews called the moon the 'Queen of Heaven,' and paid her divine honors in this character at the time of the captivity. What was the antiquity of this lunar worship among the Hebrews is testified (as has long been known) by the part played by Mount Sinai in the history of the Hebrew religion. The mountain, raised in ancient times have been consecrated to the moon."  
The peculiar symbol of Ashtaroth and the other lunar deities appears to have been a heifer or a figure with a heifer's head and horns resembling the crescent moon.—  
—London Standard.

**A Bright Little Animal.**  
Taking his size into consideration, the mole is the strongest animal we know. Whatever he does, he does with all his might. One can see the reason of the comparison "blind as a bat," but why folks should ever say "blind as a mole" is incomprehensible to me. Watch him as he runs about in the bright sunshine, after a spell of underground work, and tell me whether you think those eyes of his, small though they are, do not serve him in good stead. And that beautiful coat never shows any dirt upon it, no matter how clayey the soil may be among which he works.—  
—Fall Mail Budget.

**When White Stockings Were Worn.**  
Those who are middle aged well remember when white and halbriggan were the two colors universally worn. In those years colored stockings, except in silk, were very rarely seen, and a large item in everybody's wardrobe was dozens of stockings, a clean pair being often as necessary as a clean collar. At the present day Germany manufactures the greatest amount of hosiery.—  
—Dry Goods Economist.

**A Woman Editor for a "Funny" Paper.**  
A Miss Murphy edits the Melbourne Punch, one of the funniest and most flourishing of colonial comic papers. She joined the staff some years ago in a subordinate capacity, and has attained to her present position solely by her ability. She is a great advocate of woman's rights, and is exceedingly handsome.

**One of the Earliest Weapons.**  
The sling was one of the earliest inventions in the way of a weapon, and was itself an improvement on the stone thrown by hand, which was the rudest and most primitive method of fighting.—  
—Harper's Young People.

While the fields are roaming over,  
Breathing new-mown hay and clover,  
We'll think of her as in our woe,  
Whose teeth and breath are, every day,  
White as white clover—sweet as hay,  
And all from using SOZODONT.

## THE SILVER CHAMPION IN DEMAND.

Over fifty requests from various parts of the country have been received by Senator Stewart to deliver speeches in advocacy of the silver cause. These requests, all of which are urgent, come from Executive Committees and prominent individuals in Idaho, Colorado, Montana, California and Oregon. The following from Idaho is a fair sample of the letters received:

BOISE CITY, Idaho, Sept. 25, 1892.  
Senator Wm. M. Stewart, Reno, Nev.  
Dear Sir:—Your telegram of the 21st instant received. We can hardly take for an answer. Will it not be possible some time during the campaign for you to speak for us at Pocatello and Boise at least. We would like you to speak at Pocatello on Wood River and at Moscow and Wallace in the north, if possible, but if you cannot spare the time for all those speeches couldn't you give us one at least at Boise? We have a hard fight on our hands but feel sure that we will carry Idaho for Weaver. A speech by you would make the job much easier. The enthusiasm of the people of Idaho is continually on the increase and should increase at the same rate until the election we will not only surprise our goldbug friends in the East but the suckers in our State. Remember, Senator, that you do not belong to Nevada exclusively, but we of the whole West claim you. I enclose you a clipping from the Daily Statesman of this date that will show you how shallow the friendship of the goldbug organs is for those whom they once loved. We await your early answer and hope it will be favorable. Respectfully yours,  
D. L. BADLEY,  
Chairman People's Party State Central Committee.

Unfortunately, owing to combinations made by Harrison anti-Silver men to defeat the Senator if possible and end the Silver agitation, he has, for the present at least, to remain in Nevada to prevent the schemers against him from carrying out their nefarious designs. Stewart ought to have the support of every voter in Nevada in this great struggle for the remonetization of silver and be left liberty to assist the cause in other States instead of having to remain at home to defeat the machinations of designing men, who are endeavoring to encompass his defeat by deceptive practices.

## QUESTIONING A CANDIDATE IN INTEGRITY.

Colonel E. D. Boyle, who has repeatedly been elected to the Legislature from Storey county and whose integrity has not been heretofore questioned, is the nominee of the Silver party of Storey county for State Senator. The Gazette says that Colonel Boyle makes no secret of the fact that he will vote for Harrison. The Enterprise admits that the convention which nominated Colonel Boyle exacted a pledge that he would vote for Weaver, yet the Enterprise thinks he will vote for Harrison.

Of course a gentleman of Colonel Boyle's standing would not accept a nomination on a ticket pledged to Weaver if he intended to vote for Harrison and the object of the papers mentioned is to create the impression that Colonel Boyle is as unprincipled as they are, as hypocrites as well as misery loves company. The fact in relation to this matter is that Colonel Boyle, who has been a very prominent Republican, clung to Harrison hoping that in his letter of acceptance he would say something favorable to free coinage. In this he was disappointed and, as became a genuine friend of silver, he cut completely loose from the Wall Street nominee and declared for Weaver, the only free coinage candidate, for the Presidency.

## THE SILVER TICKET.

The Tascara Times-Review, which left the Harrison party because of its opposition to the principal industry of the State, dies the full Silver ticket at the head of its editorial column and introduces it to its readers as follows:

"The Silver party ticket at the head of this column is a good one, composed of straight-out free coinage men from top to bottom, and it would show a lack of judgment for the people of Nevada to defeat a single candidate on it. Stewart and Newlands should be our standard bearers in the silver fight. They have done good work and deserve the honor of being sent to Washington to represent us. They are against Harrison and his views of the silver question, and are not afraid to say so. They desire to be placed in an independent position where they can do more good for our cause. They are both fighters, and will bring home coinage, and Nevada will be proud of them. With them in Washington no State in the Union will be more ably represented than Nevada."

He Horribly Mutilates His Wife and Child, and Tries to Kill Himself.

## HE MEETS HIS JUST DESERTS.

Extending the Strike—Sherman on Free Coinage—Senator Stewart in Verdi—Fire in Denver—Carson Notes.

Murdered His Wife and Child.  
DUNSMITH, Cal., September 30.—J. W. Smith shot his wife and killed his child at Castella at 8 o'clock this morning. The child is dead. The woman will die. Smith is in custody and will be taken to Redding to-night.

LATER.—When J. W. Smith and family got off the train last evening at Castella they went to Mrs. Mullen's and engaged lodgings and board for a week, but when shown to their rooms Smith refused to stay in them and acted all the while like a crazy man. He took his wife and daughter to a tent in the brush and timber back of the house where some party had been camping. They thought the tent would do and save expense. About 10 o'clock a shot was heard and from that time on the shooting was kept up till daylight. J. W. Smith then brought a bundle in a blanket and laid it on the porch in front of a store. The storekeeper noticing blood on the bundle laid back the wrappings and was horrified at sight of the mutilated form of a little girl. One side of her body had been blown and torn away by shooting and her throat was cut, nearly severing her head. J. W. Smith was walking around in a dazed condition. In a few minutes Mrs. J. W. Smith came tottering towards the store. Her left arm and shoulder being shot away. She was put to bed by Mrs. M. Allen. She said that she and Smith two revolvers and a shot gun and they were afraid he would kill the child first and then kill her and last himself. She said a vigilance committee was after them and that they wanted to get away from them. She was very weak but seemed rational. Smith seemed to have made an effort to kill himself but the charge grazed and blackened one side of his head. He was arrested and tied down to the floor in the store.

The family came to Dunsmuir from Sisson. Their neighbors here speak well of them. Others say that he wanted to leave him and take her child with her. They had not always been harmonious and he said after he was arrested that he took his family away from Dunsmuir to murder them, being afraid to do so in this town. Mrs. Smith was a bright and nicely appearing lady and the little girl six years old was a lovely child. Smith has been a common drunkard. Dr. Tregloan, just from the scene, says Mrs. Smith will die this evening and that the prospects are fair for a lynching to-night. Smith is playing crazy.

LATER.—Smith was lynched this evening. He thanked the crowd for doing it. Sherman Speaks of Free Coinage.  
CLEVELAND, September 30.—Senator Sherman spoke at North Fairfield, Huron county, to-day. It was his opening speech in this campaign and he went into the 14th Congressional District, where there is a bitter fight with Congressman Harter (Democrat) on one side and E. G. Johnson (Republican) on the other. About 5,000 persons were at the meeting. Senator Sherman reviewed the material progress of the United States under the protective tariff since 1861, claiming that all the prosperity was due to Republican policy. He said: "We stand by the policy. We maintain and defend it as constitutional and right, as beneficial to all classes of our people and as one of the best results of Republican policy."

"Modern Democracy," the Senator said, "has thrown off all disguises and declared openly for the doctrine proclaimed in the Confederate constitution and first announced by Calhoun."

Sherman said he noticed Senator Hill insisted in a recent speech that the Democratic party still stands on its old doctrine of tariff for revenue with incidental protection. Senator Hill's position, he said, was not tenable for the reason that the Democratic Convention not only rejected the incidental protection idea but substituted for it provisions of the Confederate constitution. The Senator quoted from the report of Labor Commissioner Peck of New York, and dwelt upon the decreased price of sugar, the enlargement of foreign trade, etc. He said that while the Democratic and Republican parties occupied about the same position in the platforms on the silver question, it must not be forgotten that a majority of Democrats in both the Senate and the House frequently voted last winter for the free coinage of silver. He said the result of free coinage would be disastrous to all industries, and especially severe upon the laborers and the poor.

Young Mitchell Challenges Gregrain.  
SAN FRANCISCO, September 30.—Young Mitchell, the former middleweight champion of the Pacific Coast, but who retired from the ring a year ago, has issued a challenge offering to fight Alex Gregrain at 164 pounds for \$5,000 a side. Mitchell has posted \$500 forfeit.

## Stewart at Verdi.

VERDI, September 30.—The most demonstrative and successful political meeting ever held in this town occurred this evening, the occasion being the speech of Senator Stewart upon the political issues in the present campaign.

About 100 people came up from Reno upon a special, including the Silver Quartette and Hoskins' Orchestra. A large audience had assembled to hear the distinguished speaker.

Senator Stewart was at his best and held the rapt attention of the audience for an hour and a half. His remarks were frequently interrupted with rounds of applause. He gave the logic of free coinage and convinced all present that whatever others might be he was earnest and sincere in his advocacy of the white metal. He showed that it was not only right but was the duty of every citizen of the State of Nevada to vote for Weaver and Field thereby showing that her people are not only earnest but consistent in their demands.

At the close of his speech W. H. A. Pike was called for and made some telling remarks. H. H. Beck stated that he was the humorous man of the troupe and kept the house laughing whilst making many pithy utterances.

T. V. Julien also was called up and contributed to the entertainment.

The Silver Quartette's singing and Hoskins' Orchestra which closed the evening with a dance, were side essentials to the most rousing campaign meeting ever held in Verdi.

## Fire at Denver.

DENVER, September 30.—The Buena Vista Hotel was destroyed by fire at an early hour this morning. Gustave Kearz, a lodger, perished, and Anna Cunderson, A. McDugal and Tom Arnold were severely and perhaps fatally burned. The police believe the fire incendiary and the design murder and robbery. Kearz was known to have had a large sum of money last night, and no trace of it was found on the remains.

## Extending the Strike.

CEDAR RAPIDS, Iowa, September 30.—In the operators' strike the situation is becoming more serious. A number of train men's meetings were called to consider the matter and Chief Operator Ramsey said today that an investigation is being made concerning the connection of the Rock Island with the Burlington, Cedar Rapids and Northern. If it is found that the Rock Island owns the controlling interest a strike will be declared on that road.

## Carson Notes

CARSON, September 30.—Dan Miller, owner of Tycoon, Melodie, Charmion, Ida Glen and other famous Pacific Coast race horses, to-day leased Dew Drop from Henry Willis. He will take her to California with him this coming week.

To-day H. K. Brown lowered the district quarter-mile record on a bicycle to thirty-five seconds. The track was very heavy.

## A Boy Commits Suicide.

ASHLAND, Or., September 30.—S. E. Day, the 13-year-old son of ex County Judge Silas J. Day of Jacksonville, committed suicide by blowing the top of his head off with an old musket at Jacksonville this morning. The boy's parents had refused to allow him to attend the county fair.

## Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Diseases after eating, such as headache, heartburn, loss of appetite, faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are

Distress some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and effectually, to tone the stomach and other organs, regulate the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the systemic effects of the disease, banishes the headache, and refreshes the tired mind.

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, and I was in a room with fresh paint. Last spring I took Hood's Sarsaparilla—took three bottles. It did me an immense amount of good. It gave me an appetite, and my food digested and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.

Hood's Sarsaparilla sold by all druggists. Beware of cheap imitations. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar

Harrison papers appear to derive some consolation from the action of Esmeralda Republicans in putting a full county ticket in the field. In mentioning the circumstance they take care to admit the important fact that the Esmeralda Republicans endorsed Weaver and Field and the Silver party State ticket.  
E. W. M. W. Harland, a Nevada pioneer and Assessor of Humboldt county many years ago, writes the JOURNAL from Spring City, where he is now Justice of the Peace, that he is for Weaver and free coinage and cannot see how any honest citizen of Nevada can vote for the Wall Street nominees. He says Lincoln was the last people's President, but he believes Weaver, if elected, will be another friend of the people. He says he has no respect for men who say they are for free coinage while supporting Harrison or Cleveland, but there are educated fools as well as natural fools.

GOLD TRUST TACTICS.

The Malls Overburdened With Ancient Literature.

An attempt is being made by the gold trust of the East to cast a reflection upon the sincerity and consistency of Senator Stewart on the Silver question. Anti-silver speeches and documents are being sent to the people of Nevada, directed from Washington under the front of goldbug Senators to tarnish the record of Senator Stewart. The people should beware of the schemes of these enemies of silver.

Nearly every postmaster in the State has received a bundle of the speech of Mr. Cadmus of New Jersey, a goldite of the first water, with the request that they be distributed to the citizens of Nevada. In this speech Mr. Cadmus plagiarizes the words of one, Michele, taken from an article written by the latter and published in the Evening Telegram of New York during the debate on the silver question in the Summer of 1891, between Senator Stewart and the chiefs of the gold trust of New York, in which he (Michele) endeavored to show that Senator Stewart was in favor of the demonetization of silver, and to prove his assertion, quotes some remarks made by Senator Stewart in 1870 on a bill providing for the establishment of National banks on the Pacific Coast, for the issuance of gold notes instead of currency notes. Senator Stewart answered the charge of Michele at the time it was made and his reply was printed in the Telegram.

Michele was formerly a professed silver man, but now belongs to Sherman and Co. He failed to obtain money from the Silver cause, and, thinking his alleged services would be more appreciated and better compensated by the gold trust, he concluded to cast his fortunes with that combination. He is of no value whatever save to black-mail public men and create animosities and ill feeling between his fellow men. He was dreadfully scorned by Judge Goodwin, editor of the Salt Lake Tribune, for his defamatory business and hypocrisy. He is a bad man, with not one redeeming quality.

It is Michele who is sending out this speech of Mr. Cadmus, under the front of Senator McPherson of New Jersey, an avowed enemy to the free coinage of silver. The speech needs only to be read in order to disclose its animus. The gold trust is trying to educate the people of Nevada to the gold standard and the utter ruin of the State. It is a difficult task for the enemies of silver to get matter with which to assail the record of Senator Stewart on silver, and they will go back a quarter of a century if necessary, to get a scrap which will show that he is now inconsistent. However, the record of the Senator will bear close scrutiny and investigation. He has refuted all the charges and assertions made by the leading gold men in the Senate and elsewhere, with reference to his record, and the people of Nevada know where he stands on this question of silver. No words are required to be uttered in his defense. His unceasing and untiring efforts during the last six years for the procurement of a free coinage law is a sufficient and complete answer to all questions as to his sincerity and earnestness in the fight he is now waging for the chief industry and the material welfare of the people of Nevada.

The charge of Mr. Cadmus that Senator Stewart favored the demonetization of silver, as has already been said, the same as that made by Michele and which was answered in the Evening Telegram of New York by the Senator. This answer is a full refutation of the charge. His reply then reads as follows:

Evening Telegram, July 13, 1892.  
Mr. Michele quotes from the Congressional Globe of January 25, 1870, page 737, remarks made by me as follows:

"Mr. Stewart: I do not propose to discuss this bill (Senate bill 378, introduced by Senator John Sherman of Ohio, to provide a national currency of coin notes, silver and gold, January 11, 1890) but simply to say that I should like to see the provision to permit banking on the gold basis adopted."

"I believe men would undertake to establish banks on the gold basis."  
"Of course, banking on a specie basis and issuing paper, there must be much more of paper than there is of gold, as the paper circulation amounts to nothing. That depends upon the confidence the community has in the circulating medium as a matter of course."  
"The gold basis, as I understand it, will be a good deal affected in any way."  
"I have no doubt if the business men of California, Nevada, and Oregon undertake to proceed to establish banks on the gold basis they will be able to float a large amount of these gold notes among the people as a circulating medium."

"I believe there will be great confidence there in a gold note secured in the mode that National banks are secured."  
"THE BILL UNDER CONSIDERATION."  
"The attempt to construe these remarks as a declaration on my part in favor of the single gold standard, illustrates the incapacity of Mr. Michele to state facts. The bill under consideration upon which these remarks were made, provided for the organization of National banks for the issue of gold notes instead of currency notes. It had no more to do with the coinage of silver dollars than the issue of National bank currency redeemable in greenbacks. Besides, the reserve required to be kept by these gold banks was gold and silver coin."  
"The Act provided that 'Every association organized under the preceding section shall at all times keep on hand not less than twenty-five percentum of its outstanding circulation in gold or silver coin of the United States, and shall receive at par in the payment of debts the gold notes of every other such association which at the time of such payment is redeeming its circulating notes in gold coin of the United States, and shall be subject to all the provisions of this title;'

"Provided, that in applying the same to associations organized for issuing gold notes, the terms 'lawful money' and 'lawful money of the United States' shall be construed to mean gold or silver coin of the United States; and the circulation of such association shall not be within the limitation of circulation mentioned in this title." (Revised Statutes, Section 5186, page 1002.)

"The Pacific States, unfortunately, as I have always maintained, adhered to the gold standard during the war. The result was utter isolation from the East. Dear money produced stagnation and hard times on the Pacific. Emigration and the investment of Eastern capital were excluded. The people of the Atlantic States were unwilling to submit to the discount required to exchange their money for the current coin of the Pacific States."

Dear money produced stagnation and hard times on the Pacific. Emigration and the investment of Eastern capital were excluded. The people of the Atlantic States were unwilling to submit to the discount required to exchange their money for the current coin of the Pacific States."

"WORKING FOR SILVER."  
"I frequently called attention to the cause of depression on the Pacific Coast and endeavored to persuade the people to harmonize their financial system with that of the General Government. I quote the following from an address delivered by me in Platt's Hall, San Francisco, on August 15, 1885:

"I believe by harmonizing the financial system of the Coast with that of the parent Government and the Eastern States the cloud of the financial gloom that rests upon the commercial circles of the seaboard will rapidly dissipate and our present drooping and desponding mining interests will awake into an energy and proportionate success that will far transcend the cold and marvel that attended the early history. I am fully satisfied that it requires but the removal of this antagonism to arouse a national attention and confidence in our behalf, and to flood this extreme section with cheap capital and hard-earned and hard-laborers. It demands that the formation of this pecuniary fellowship and consanguinity to give feature and reality to rapid inter-oceanic thoroughfares so conducive to State prosperity and national safety that have hitherto slept in the brain of the enthusiast. Under this financial rivalry, with the generous and enlarged activity it will inspire, there will be heard the crashing stamps of quartz crushing mills upon a thousand hills, and from the Missouri river to the Pacific Ocean each fertile plain and every mountain peak adapted to cultivation will become the home of prosperous and happy families. Under such honorable auspices what a bright future is in reserve for your temporarily depressed and struggling city."

"It was impossible to induce the Pacific States to abandon the gold standard, and the prosperity of that section was postponed until greenbacks were par. Since that time emigration from the East and Eastern capital have doubled the wealth and population of all the States bordering on the Pacific Ocean. Inasmuch as nothing but coin would circulate there, and as paper was more convenient than coin, I saw no reason why the people should not have an opportunity of using gold notes I therefore favored the law authorizing it."

Fifth Day of the Ormsby Fair.

The attendance at the Ormsby Fair continues good, but the threatening weather and rain storm of Thursday night prevented a larger turnout from the surrounding towns to and yesterday.

The following is an account of the race programme:

The unofficial trot was won by Chlois. Time, 2:30 1/2.

No. 1. Running race; 9-16 of a mile—Trumbo, Zora, Frank Evans, Joe, Lella S. and Charger.

This race was declared off on account of the foul riding of Meyers, the rider of Charger.

No. 2. Running; 1/4 of a mile—Beattie S., Sagebrush Kate, Lady Kent, Spot and Bay Billy.

The short-enders played lucky in this race. Sagebrush Kate, in the first, won in 0:38.

No. 3. Running; 1/4 of a mile—Democrat, Red Rose, Little Tough and Regal.

Red Rose came in first, but Regal was given the race on account of foul riding by the rider of Red Rose, who was also fined \$10.

No. 4. Running; 1/4 of a mile—This was considered the event of the day, and was styled the Darktown Scramble, none but colored men being allowed to ride. The names of the riders, instead of the horses, were entered and pools sold on them. The riders were to take whichever horse the judges might designate. The entries were Frank Williams, Chance, Snowball, Monroe, Johnson, Luke Flowers, Fortune and Henry Peppers.

The race was won by Flowers. Time, 1:04.

No. 5. Free-for-all trot—Maud H., Alpha, Chlois and Victor.

Alpha took the first and second heats in 2:31 1/2, 2:30 1/2.

In the chariot race Mrs. Emery won. Time, 2:12 1/2.

## THE SPEAKING AT WADSWORTH

A Large Attendance and Considerable Enthusiasm.

The Silver meeting at Wadsworth night before last was well attended, Music Hall being filled with attentive listeners, many ladies being present. W. H. A. Pike was chosen Chairman and addressed the meeting in a very appropriate remarks. The Silver Quartette rendered in good style several pieces in which there were local hits that brought down the house. Senator Stewart delivered a telling speech, in which he stated plain facts which were highly appreciated and enthusiastically applauded by the audience. At the conclusion of his remarks H. H. Beck was introduced and told some wholesome truths which his hearers applauded. He referred to the depression caused by the demonetization of silver, and pointed out the great advantages the State would derive from the appreciation of the price of silver. He gave some object lessons showing the effect of the low price of silver on farming and other industries, and made several good points which were well received by his hearers. Wadsworth is decidedly a silver community and will roll up a handsome majority for the Silver ticket.

## FOSTER'S WEATHER FORECASTS.

A Storm Wave Due to Cross the Continent.

Copyrighted 1892 by W. T. Foster.  
St. Joseph, Mo., September 29, 1892.  
My last bulletin gave forecasts of the storm wave to cross the continent from October 1st to 5th, and the next will reach the Pacific Coast about October 5th, across the Western mountains by the close of October 6th, the great central valleys from the 7th to 9th and the Eastern States about the 10th.

This disturbance will be of average dimensions and will be at its greatest force on the Pacific Coast and in the Western mountains on the 6th and 8th, while the storm preceding it will be at its greatest force in the Eastern States at the same time.

The cool wave will cross the Western mountains about the 5th, the great central valleys about the 10th and the Eastern States about the 12th.

Chinese Long Life.

From the following figures in a report submitted by the county of Kaoyao Hien, Kiangtung, to their magistrate, of the number of old people in that district, we cannot help being convinced of the fact that the Chinese are a long lived race. In that single district there are three persons over 100 years of age, 180 about the age of 90, and as many as 8,000 who have reached the mature age of fourscore.—North China Herald.

Old Baws.

Some of the old forms of our commonest saws are pleasant enough: "That which cloyed by the bone might not out of the fleshess." "A pot may go so long to water that at the hute it cometh to-broken boom." "There is none that stoneth so surely, but otherwhyle he falleth or sylleth." "Murder abydeth not hyd; it shal come out."—London Saturday Review.

A Real Train.

"A real train of cars, was it?"

"Yeth, thir. It went wifout astwing."

Still Growing.  
A glance at the map of Powning's Addition shows that with but very few exceptions all of the most eligible lots have been sold. Along the entire river front, or Riverside Avenue, there are only three corners left, while on Second street there are but four that are not sold. People wonder how it happens, but Reno keeps on growing just the same, and those who are still hunting bargains should buy a lot in Powning's Addition while lots are yet reasonable.

## HE FOUND FATHER'S BODY.

Though He Had Laid in a Nameless Grave for Many Years.

"Now this is a true story," said a gentleman whose office is a door or two off upper Broadway, "and the question is, was it fate, psychic attraction, an overruling Providence or—but I'll tell you the incident.

"When the war broke out my brother and a classmate of his, to whom he was much attached, both enlisted at the same time and departed for the south, leaving behind in the little town in western New York their young wives, to whom they had been married but a short time. My brother's chum, whom we may call Ned Brown for convenience, had, I think, been a husband but six weeks when he left for the front. Brother Jack was soon after transferred to the adjutant general's department, so saw little of active service, and Ned was in the division of the army which remained in the vicinity of Washington for about a year. Then came the Battle of the Wilderness and with it the startling intelligence to Jack that Ned had been mortally wounded and had sent for him. He made all haste to the side of his friend, who soon after his arrival died in his arms.

"As was usual after great battles, the dead were buried, many together, in large trenches, and my brother was much troubled over the probability of there being no means of locating or identifying the body, when, as he felt sure, the family would wish to send for it. There had been a little son born to the young soldier in that far away village by the lake, and he felt that the child, who had never looked upon his father's face, would one day want to know at least where his body lay.

"The men in charge assured Jack that the body should be placed at the head of the trench, and if any mark could be left upon it it would be easily found. For some time my brother wondered what he could do. Then an idea struck him. He found a bottle, and placing inside of it a paper upon which was written the name and regiment of his friend, he tied it about the neck of the corpse.

"Some time afterward when friends of the dead soldier came for the body other trenches had been dug near the first, and it was impossible to identify the spot, though the grief stricken widow could scarcely be prevailed upon to give up the search.

"Well, just the other day a young commercial drummer from a Rochester house found himself in the quiet town of Petersburg, Va., and to pass away a dull Sunday went out to the soldier's burying ground. After he had wandered around for a time among the green mounds he suddenly saw painted upon a wooden slab a name that made his heart leap.

"It was his father's name. And this was Jack's boy, the boy the brave young soldier had so longed to see. Years ago, when the bodies were removed from the old trenches and reburied, the bottle with its bit of paper had been the means of identifying one at least.

"That night there flashed over the wires this message to the soldier's widow, 'I shall bring home father's body with me next week.'—New York World.

## "German Syrup"

**J. C. Davis, Rector of St. James' Episcopal Church, Eufaula, Ala.**

"My son has been badly afflicted with a fearful and threatening cough for several months, and after trying several prescriptions from physicians which failed to relieve him, he has been perfectly restored by the use of two bottles of **Boschee's German Syrup**. I can recommend it without hesitation." Chronic severe, deep-seated coughs like this are as severe tests as a remedy can be subjected to. It is for these long-standing cases that **Boschee's German Syrup** is made a specialty. Many others afflicted as this lad was, will do well to make a note of this.

**J. F. Arnold, Montevideo, Minn., writes:** I always use **German Syrup** for a Cold on the Lungs. I have never found an equal to it—far less a superior.
